YOUR ROBO ROAD MAP

In New Braunfels is das LEGO Schoen! 830-221-4319
NBPLRobotics@gmail.com

1. Where are you starting?
   A. My director made me come here. I am secretly terrified. Please don’t tell.
   B. We do LEGO programs at my library. I am a bit familiar with LEGO and computers.
   C. There are several staff or volunteers at my library who can do basic programming. I am totally fine with learning a new computer language.

2. What kind of curriculum do you want?
   A. I just want to buy a robot kit and let the kids try it out. They’ll be happy messing around!
   B. I want a weekly robotics program, but I don’t want to have to come up with lessons.
   C. I want to serve over 10 kids with robotics for several months at a time, and we like the idea of competing with other teams!

3. What resources do you have?
   A. I can buy a self contained robot kit, especially if it’s under $300.
   B. I have around $1000 for this program and one or two volunteers.
   C. I have (or can get) over $1000. I also have several volunteers who want to help.

Your Answers:

Mostly A’s: Check out the LEGO We-Do here, and look into the Play-I Bo and Yanna online (available in December). With some teen volunteers and good tutorials online, you can have robotics days as often as you want!

Mostly B’s: Jr. FLL or FLL is probably right for you, so ask us about setting up a team. Once you register with FIRST, your season’s challenge and materials are laid out for you, so you don’t have to make up lessons. If you can be in New Braunfels on May 1st at 7pm, come to our workshop “FLL For Everyone” and hear all about it!

Mostly C’s: You won’t have to struggle with who gets to be on your Jr. FLL, FLL, or FTC teams, because you can have more than one! Check out all our robots and teaching resources and get ready for the toughest fun you’ll ever have!
