This presentation and you!

The handout with all details is online!

“Consumer Health”

- The idea that people are ‘consumers’ of health care and health information.
- Shoppers research - health care consumers should too!
- Consumer health resources are tools and sites designed for this purpose.
Covering two types of sites (mostly)

TexShare
https://www.tsl.texas.gov/texshare/databasespage.html
- Alt Health Watch
- Health Reference Center - Academic
- Health Source - Consumer Edition
- Health Source - Nursing/Academic
- MedicLatina
- MEDLINE with MeSH (EBSCO)
- Natural & Alternative Treatments
- Salud en Español

Government & NGO
- AIDSinfo
- ClinicalTrials.gov
- Drug Information Portal
- Genetics Home Reference
- Household Products Database
- MedlinePlus.gov
- NIH Senior Health
- PubMed
- Questions are the Answer
- Refugee Health Information Network
- ToxTown & ToxMystery
- ToxNet / LactMed
Alt Health Watch provides in-depth coverage across the full spectrum of subject areas covered by complementary and alternative medicine. It offers full-text articles for more than 180 international, and often peer-reviewed journals and reports.
1. **This Brew’s for You.**

   **Subjects:** APIGENIN -- Research; CANCER -- Treatment; GERMAN chamomile

2. **Reviews of articles on medicinal herbs.**

   **Subjects:** MENTAL depression -- Drug therapy; HYPERLIPIDEMIA -- Drug therapy; GREEN tea -- Therapeutic use; SOYFOODS -- Therapeutic use; EERIES -- Therapeutic use; YARROW -- Therapeutic use; LUNGS -- Tumors -- Prognosis; CARDIOVASCULAR system -- Diseases -- Risk factors; CHRONIC renal failure; DIABETES; HYPOGLYCEMIA; MEDICINAL plants; METABOLISM -- Regulation

3. **The Natural Cure for Gas and Bloating.**

   By: DOG, DR. TIERAONA LOW. Prevention. Apr 2013, Vol. 65 Issue 4, p64-64. 1p. 2 Color Photographs.

   **Subjects:** BLOAT (Physiology); DANDELIONS; DIGESTION; DIETARY supplements; COOKING (Yogurt)

4. **The Benefits of Aromatherapy for the Spring Season.**

   **Subjects:** ALLERGY -- Treatment; AROMATHERAPY; SEASONS

5. **Create an Aroma Bar.**

More than 2,000 full-text sources and 5 million articles including peer-reviewed nursing and allied health journals.

International news coverage.

Also includes hundreds of videos from OR-Live demonstrating medical procedures.
Health Source: Consumer Edition

- This resource provides access to nearly 80 full-text, consumer health magazines.
- Health Source: Consumer Edition contains more than 9,900 Clinical Reference Systems reports (in English and Spanish); Lexi-PAL Drug Guide, which covers 1,300 generic drug patient education sheets; and Merriam-Webster's Medical Desk Dictionary.
1. Dog dust may benefit infant immune systems.
   Subjects: IMMUNE system -- Research; INFANTS -- Development -- Research; DOGS -- Research; HEALTH -- Research; HYGIENE -- Research; MICROORGANISMS -- Research

2. Modulation of Distinct Asthmatic Phenotypes in Mice by Dose-Dependent Inhalation of Microbial Products.
   By: Whitehead, Gregory S.; Thomas, Seddon Y.; Cook, Donald N. Environmental Health Perspectives. Jan2014, Vol. 122 Issue 1, p34-42. 9p. 6 Graphs. DOI: 10.1289/ehp.1307280.
   Subjects: ANIMAL experimentation; ASTHMA; CYTOKINES; DUST; ENZYME-linked immunosorbent assay; FLOW cytometry; IMMUNOCLOBULINS; INFLAMMATION; MICE; RESEARCH -- Finance; STATISTICS; T cells; T-test (Statistics); PHENOTYPE; DATA analysis; ENVIRONMENTAL exposure; ALBUMINS; DATA analysis -- Software; LIPOPOLYSACCHARIDES; DESCRIPTIVE statistics

3. Maternal Concentrations of Persistent Organochlorine Pollutants and the Risk of Asthma in Offspring: Results from a Prospective Cohort with 20 Years of Follow-up.
   By: Hansen, Susanne; Strøm, Mari; Olsen, Sjurud F.; Maslova, Ekaterina; Rantakokko, Panu; Kiviranta, Hannu; Ryter, Dorle; Bech, Bodil H.; Hansen, Linda V.; Hallössson, Thrallur i. Environmental Health Perspectives. Jan2014, Vol. 122 Issue 1, p93-99. 7p. 4 Charts. DOI: 10.1239/ehp.1203397.
   Subjects: DENMARK; ASThma -- Risk factors; CONFIDENCE Intervals; EPIDEMIOLOGY; HYDROCARBONS; LONGITUDINAL method; QUESTIONNAIRES; RESEARCH -- Finance; STATISTICS; DATA analysis; PROPORTIONAL hazards models; DATA analysis -- Software; BENZENE -- Derivatives; DESCRIPTIVE statistics; FREGANCY
Health Source: Nursing/Academic

- Provides nearly 550 scholarly full-text journals focusing on many medical disciplines.
- Coverage of nursing and allied health is particularly strong.
1. The 2014 Danish references from birth to 20 years for height, weight and body mass index.
Subjects: CHILDREN -- Health; BODY mass index; BODY weight; HEIGHT measurement; CAUCASIAN race.

2. Erratum to: Comparative study of the safety of regadenoson between patients with mild/moderate chronic obstructive pulmonary disease and asthma.
By: Salgado Garcia, Carlos; Jimenez Hefferman, Amelia; Sanchez de Mora, Elena; Ramos Font, Carlos; Lopez Martin, Juana; Rivera de los Santos, Francisco; Ynfante Milà, Ignacio. European Journal of Nuclear Medicine & Molecular Imaging. Feb 2014, Vol. 41 Issue 2, p401-401. DOI: 10.1007/s00259-013-2526-4.

Subjects: ASTHMA -- Treatment; HEALTH behavior; HEALTH promotion; MEDICAL personnel; PATIENT compliance; PATIENT-centered care; FAMILIES of patients; CHILDREN.

Subjects: OCCUPATIONAL asthma -- Risk factors; ALLERGENS; ANIMAL experimentation; CELL culture; DRUGs -- Administration; ENZYME-linked Immunosorbent assay; GAS chromatography; IMMUNIZATION; MASS spectrometry; MICE; MONOCLONAL antibodies; PERITONEUM; RESEARCH -- Finance; WESTERN immunoblotting; PROTEOMICS; OCCUPATIONAL hazards; ENVIRONMENTAL exposure.
MedicLatina

- A unique collection of medical research and investigatory journals from Latin American and Spanish publishers.
- Spanish language database contains the complete table of contents and PDF full text for 130 peer-reviewed medical journals in native Spanish.
- A wide range of topics are covered.
1. ME SOBRA EL CORAZÓN. (Spanish)

2. La función mitocondrial y la cardioprotección. (Spanish)
   Subjects: MITOCHONDRIA -- Research; CARDIOTONIC agents -- Therapeutic use; ENERGY metabolism -- Research; CELL metabolism -- Research; CELL death -- Research.

3. Proteoliposoma: corazón de VA-MENGOC-BC® y plataforma de adyuvantes. (Spanish)
   Subjects: RUBELLA virus; DENGUE viruses; ENCEPHALITIS viruses; ANTIGENIC determinants; PROTEINS -- Structure; LIPOPOLYSACCHARIDES; NEISSERIA meningitidis.

4. Tamiz neonatal para detectar cardiopatías congénitas complejas. La nueva revolución en pediatría. (Spanish)
   Subjects: MEDICAL screening; CONGENITAL heart disease -- Diagnosis; PEDIATRICS; NEWBORN infants -- Diseases -- Diagnosis; EVIDENCE-based medicine, PULMONARY valve -- Diseases; TETRALOGY of Fallot.
MEDLINE with MeSH from EBSCO

- **Broad biomedical** database information on medicine, nursing, dentistry, veterinary medicine, the health care system, pre-clinical sciences, and much more.
- Created by the National Library of Medicine, MEDLINE uses MeSH (Medical Subject Headings) indexing and includes powerful filters.
- Covers around 6,000 current journals.

A complementary and alternative medicine database designed specifically for the consumer health researcher. Contains more than 700 evidence-based articles covering medical conditions, alternative therapies, herbs and supplements, functional foods, drug interactions, and homeopathy.
Natural & Alternative Treatments contains detailed information on almost 200 different conditions and the conventional and natural treatments used to treat them, over 300 herbs and supplements, plus drug-herb and drug-supplement interactions for more than 90 drug categories.

**Conditions**
Learn all about health conditions and illnesses in this A-Z Conditions guide that contains extensive science-based information nearly 200 health conditions and their natural remedies.

**Herbs & Supplements**
The latest scientific information and evidence on natural remedies and their uses can be found in this A-Z Herbs & Supplements guide – over 300 herbs, vitamins, and supplements are covered.

1 2 3 A B C D E F G H I J K L M N O P Q R S T U V W X Y Z A I I I

**Drug Interactions**
Learn about the positive and negative ways in which herbs and supplements can interact with medications. Click on the trade or generic name of a medication to learn what you need to know about natural substances that might interact with it.

**Alternative Therapies**
Many alternative therapies have made their way into the mainstream, but how do you know what really works? From acupuncture to yoga testing, our monographs cover all the latest research on alternative therapies to help you make an educated decision on whether or not to use these therapies.

**Functional Foods**
You may have heard the phrase “functional foods,” but what does it mean? What can functional foods—such as soy, oatmeal, and calcium-fortified products—do for us? And should we be eating more of them? Learn about the latest scientific evidence about the benefits of these foods.

Includes evidence-based reports and fact sheets in Spanish on all aspects of health and wellness.
Wide coverage: first aid, infant/child care and illnesses, alternative medicine, and aging.

- Biological activities and chemical structures (PubChem)

- Site for information about genetic conditions and the genes or chromosomes related to those conditions.
Huntington disease

What is Huntington disease?

Huntington disease is a progressive brain disorder that causes uncontrolled movements, emotional problems, and loss of thinking ability (cognition).

Adult-onset Huntington disease, the most common form of this disorder, usually appears in a person's thirties or forties. Early signs and symptoms can include irritability, depression, small involuntary movements, poor coordination, and trouble learning new information or making decisions. Many people with Huntington disease develop involuntary jerking or twitching movements known as chorea. As the disease progresses, these movements become more pronounced. Affected individuals may have trouble walking, speaking, and swallowing. People with this disorder also experience changes in personality and a decline in thinking and reasoning abilities. Individuals with the adult-onset form of Huntington disease usually live about 15 to 20 years after signs and symptoms begin.

A less common form of Huntington disease known as the juvenile form begins in childhood or adolescence. It also involves movement problems and mental and emotional changes. Additional signs of the juvenile form include slow movements, clumsiness, frequent falling, rigidity, slurred speech, and drooling. School performance declines as thinking and reasoning abilities become impaired. Seizures occur in 30 percent to 50 percent of children with this condition. Juvenile Huntington disease tends to progress more quickly than the adult-onset form; affected individuals usually live 10 to 15 years after signs and symptoms appear.

How common is Huntington disease?

Huntington disease affects an estimated 3 to 7 per 100,000 people of European ancestry. The disorder appears to be less common in some other populations, including people of Japanese, Chinese, and African descent.

- Includes information on over 12,000 products and their possible health effects obtained from Material Safety Data Sheets (MSDS).
- Details the chemical ingredients and their percentages in specific brands, displays ingredients, manufacturer information, acute and chronic ingredient effects.
LactMed,

- Peer-reviewed and referenced database of drugs to which breastfeeding mothers may be exposed.
- Includes maternal and infant levels of drugs, possible effects on breastfed infants and on lactation overall, and alternate drugs to consider during breastfeeding.
- There’s an app for this:
Drugs and Lactation Database (LactMed) - A peer-reviewed and fully referenced database of drugs to which breastfeeding mothers may be exposed. Among the data included are maternal and infant levels of drugs, possible effects on breastfed infants and on lactation, and alternative drugs to consider.

Drug Levels and Effects:

Summary of Use during Lactation:

Although the small amounts of pseudoephedrine in breastmilk are considered safe for breastfeeding, some studies suggest that higher doses may decrease milk production. It is recommended to consult a healthcare provider for advice on whether to continue breastfeeding while taking pseudoephedrine.

- MedlinePlus is the National Library of Medicine’s health information site for patients and families.

Questions are the Answer,
http://www.ahrq.gov/questionsarethetanswer/

- Features questions for patients to ask their health care professionals.
- Lists of questions for patients, brochures, and videos are designed to help patients feel comfortable and prepared to ask questions during appointments.
The questions...

1. What is the test for?
2. How many times have you done this procedure?
3. When will I get the results?
4. Why do I need this treatment?
5. Are there any alternatives?
6. What are the possible complications?
7. Which hospital is best for my needs?
8. How do you spell the name of that drug?
9. Are there any side effects?
10. Will this medicine interact with medicines that I'm already taking?
Questions To Ask Your Doctor

Questions Are the Answer

Your health depends on good communication

Asking questions and providing information to your doctor and other care providers can improve your care. Talking with your doctor builds trust and leads to better results, quality, safety, and satisfaction.

Quality health care is a team effort. You play an important role. One of the best ways to communicate with your doctor and health care team is by asking questions. Because time is limited during medical appointments, you will feel less rushed if you prepare your questions before your appointment.

Your doctor wants your questions

Doctors know a lot about a lot of things, but they don’t always know everything about you or what is best for you.

Your questions give your doctor and health care team important information about you, such as your most important health care concerns. That is why they need you to speak up.

A simple question can help you feel better, let you take better care of yourself, or save your life. The questions below can get you started.

1. What is the test for?
2. How many times have you...

- Multilingual health information (80+ languages) for health providers, refugees, and asylees.
- Makes accessible culturally and linguistically appropriate health information available to improve health services.
- Content includes cultural guidance and country condition reports with supporting text, audio, and video.
